

Love has never tasted so *good!*

AUTHENTIC ARTISAN GELATO

The Special Ingredient is Love

Love is a vital part of life. In Italy, Valentine's Day has a rich history and tradition. *San Valentino* was roman priest who became a figure closely associated with love during the Italian renaissance of the 14th century. Italian artists were instrumental in *romanticizing* San Valentino through their paintings and sculptures.

Today, couples celebrate Valentine's Day by taking the opportunity to express their love and affection for each other. Here at G.S. Gelato we pour our *passion and love* into what we do not once a year, but every day. We believe love is the ingredient that makes our Gelatos and Sorbetos special. *Give the gift of love. Give the gift of gelato.*
